

WetterWelt · SMS Weather Service

www.wetterwelt.de · service@wetterwelt.net · +49 431 97 99 08 0

How to request your forecast.

Once activated, send your request from your registered mobile number to

+49 160 633 6401

For an area forecast, send only the three-letter code, for example **KIB** for Kiel Bay. Do not add the area name or other text. One forecast uses one credit and arrives as three reply messages.

Sea weather for an area

KIB

Kiel Bay

Sea weather for coordinates

2808N 01523W

Las Palmas de Gran Canaria

Land weather

5231N 01324E LAND

Berlin

Route weather

3913N 00304E 63 05

Start near Mallorca, course 63°, speed 5 kn

Use degrees and minutes: four latitude digits followed by N/S, and five longitude digits followed by E/W. Keep leading zeros and spaces. Use the literal keyword **LAND** for land weather, also in English-language requests.

Area list from the WetterWelt SMS flyer. Cannot find a suitable area? Request a forecast using coordinates.

Area map for your text message

Area names and codes are listed in the tables on the following pages.

Area codes for your text message

Choose your sailing area and use the code shown in the table. Codes are identical in both languages.
